PROFESSIONAL PROFILE

Aspiring software developer and data analyst skilled in Python, SQL, and data analytics. Hands-on experience in machine learning, web development, and data visualization, with internships in both domains. Focused on building practical, data-driven solutions to real-world problems.

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL.
- **Web & Backend Technologies:** HTML, CSS, RESTful API Development, Backend Development.
- **AI/ML:** Artificial Intelligence, Model Training & Evaluation, Feature Engineering, Predictive Modeling, Linear Regression
- **Data Analytics & Visualization:** Data Preprocessing & Cleaning, EDA, Statistical Analysis, Data Visualization (Seaborn), Business Intelligence (Power BI, Excel)
- **Tools & Technologies:** Git, GitHub, Docker (Containerization), Postman (API Testing), Scalable & Automated Workflows.
- **Databases:** MySQL, SQL Query Optimization, MySQL Workbench
- **Core Computer Science Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
- **Soft Skills:** Problem Solving, Critical Thinking, Analytical Thinking, Effective Communication, Business Acumen

PROJECTS

- **Campus Social**
 - Created a user-friendly website to help students explore courses, connect with peers, and access career insights and academic resources.
 - **Technologies:** HTML, CSS, js
- **Question Generator Portal**
 - Developed a web-based Question Generator Portal to automate question paper creation for university examinations.
 - Implemented backend logic for automated question paper generation
 - **Technologies:** HTML, CSS, MYSQL Workbench
- **Portfolio**
 - Designed a personal portfolio website to showcase skills, projects, internships, and academic achievements.
 - **Technologies:** HTML, CSS,
- **House Price Prediction System**
 - Built a machine learning model to predict house prices based on user input such as area(sqft) and number of bedrooms.
 - Performed data preprocessing and feature selection using Python and Pandas
 - Trained and evaluated regression model using Scikit-learn
 - **Technologies:** Python, Pandas, Numpy, Scikit-learn, seaborn, Linear regression.

EXPERIENCE

Software Developer Intern

Nelumbus Technologies | 04/2023 - 08/2023

- Designed and developed a web-based Question Generator Portal for communication between faculty and the examination department.
- Integrated frontend and backend components for dynamic question paper generation using predefined formats aligned with university standards

Data Analysis Intern

Codtech IT Solutions | 07/2024 - 08/2024

- Generated an Interactive Dashboard to Examine User Demographics and Online Purchases using Microsoft Power BI tool.

EDUCATION

Ajeenkya Dy Patil University

B.Tech in Information Technology and Data Science - CGPA : 8.04

2021 - 2025

Pune, Maharashtra

Don Bosco High School I

Intermediate - CGPA : 6.67

2019 - 2021

COURSEWORKS

- Databases and SQL for Data Science With Python - IBM
- SQL and Relational Databases - IBM

PUBLICATION

Securing Academic Social Platforms: Implementing Role-Based Access Control (RBAC) in University- Based Digital Systems

International Journal For Research Trends And Innovation

| <https://ijrti.org/viewpaperforall.php?paper=IJRTI2505044>

EXTRA-CURRICULAR ACTIVITIES

- Won 3rd Prize in a 24-hour Hackathon Organized by BrainoVision Solutions
- SQL 4-star Badge on HackerRank. Lead a team of 6 interns.
